EW

“ *Jo’celyn Daraiya Williams*  
*Even though you were with us for only a short time, Jo’celyn, you made a forever impact on our hearts. We dreamed of your future, whispered to you in the quiet moments, and felt your presence in every loving thought.*

*You were so deeply wanted, so fiercely loved, and always will be. We remember the joy we felt when we first knew you were coming, the hope that grew with every little kick and flutter. Your life, though brief, brought us closer, taught us the meaning of love without limits, and gave us a forever bond we’ll carry with us.*

*You are our angel baby, Jo’celyn—gone too soon, but never forgotten. Mommy,Daddy & Your Siblings Will always Cherish You Love you baby girl get your rest save a spot for mommy ☐*

VL

*To mommy: I met you for the first time a few months ago and immediately fell in love with you and your precious little family. I was so happy about you wanting to expand your family , I'm so sorry to hear this precious little one had to go home earlier than we would have ever imagined. I'm especially sorry I won't get to hug and squeeze and kiss her like I did the other precious little ones ,I'll save a hug and a kiss for her when we meet, I love you dear heart and will keep you and your family in my prayers 💕👉❤*
