“ *I met Kay in June 1997 when I moved to Galveston. Kay was a loving and caring woman of God. I had no family in Galveston and she introduced me to her loving family who accepted me and my family. She was not a stranger to anyone. So many memories. She traveled with me to Louisiana to check on my mother. I forgot to make my turn and she fussed at me because I had just said I would need to take that loop and I bypassed the loop. We had a good time. Kay and my mother stayed up talking like they had known each other forever. Kay was always dependable. My husband and I know we could trust Kay with our children and our kids always obeyed her. Kay is missed. The memories we will always cherish. Love you family!*
