“ *Rachel Mach Culbreath came into my life approximately 15-years ago. I came to love and appreciate her intelligence, friendship, and incredible knack to win any trivia contest that came her way! I watched her masterfully raise her son, with such love and dedication. Rachel was the epitome of "mama bear" and saw the incredible potential in Cory. When Robert and his daughters came into Rachel's life her light was further illuminated. I observed Rachel when she was diagnosed with cancer and her will to fight! She had a steadfast determination that was so admirable; she never allowed herself to be a victim of her health circumstances. She missed her beautiful friend Denise so much. Now those two are together chasing the butterflies in Heaven. Fly high and strong sweet friend. You'll forever be loved and remembered - Nita*
